

MILWAUKEE ART MUSEUM

Dear Principal,

Your teachers, students, parents, and administrators are important members of the Milwaukee arts community, and of the Milwaukee Art Museum. I commend your school for its hard work on behalf of your students. The Museum supports your endeavors through our school programs, which enhance and enrich your school's curriculum.

These programs and docent-led tours promote critical thinking and interdisciplinary curriculum applications. On their visits to the Museum, students strengthen visual literacy skills, develop and cement vocabulary, and foster observational and evidence-based thinking.

Our programs and tours support and provide real-world application for National Common Core State Standards for English Language Arts, and meet the below Wisconsin State Standards.

- Social Studies Content Standard B.1
- Art and Design Education Content Standards A, B, D, G–L

We are also committed to continuing your students' families' experience here, regardless of their ability to pay admission. We provide each student with a Family Pass to return to the Museum free-of-charge, generously sponsored by the Terri and Verne Holoubek Family Foundation.

We hope you make the Milwaukee Art Museum part of your students' academic experiences, and encourage you to support your teachers and students by including the Museum and its resources as part of your curriculum. You can find all of our programs and resources online at mam.org/learn and book programs by calling 414-224-3842. Please feel free to share the above information with your school board, curriculum instructors, and parents.

Sincerely,

A handwritten signature in blue ink, appearing to read "DK", positioned above the name Daniel T. Keegan.
